Unique Black Glas Skin V3.1

This Skin pack includes the 8- and 18 covers HD version and a 8 cover SD (4:3) version.

Due to the small resolution of the SD version some things gone!

ATTENTION! THIS SKIN WORKS AND LOOK ONLY CORRECT ON A NMT!
NOT ON A PC!

Requirements:

- YAMJ-r2070 and higher

- Mediainfo cli version 0.7.39 or higher

- Java runtime

Copy all contents fro this archive into a clean YAMJ package.

How to run YAMJ:
http://www.pettingers.org/code/yamj-basics.html

For each version exist an extra 'moviejukebox.properties' file:

moviejukebox.properties   (8 Covers HD)

moviejukebox_18.properties   (18 Covers HD)

moviejukebox_sd.properties   (8 Covers SD)

Rename on of these files to 'moviejukebox.properties' to use it in YAMJ.

Each skin version can be configured by these three files:

skins\Unique_BGL_x\options.xsl

skins\Unique_BGL_x\skin.properties

moviejukebox.properties
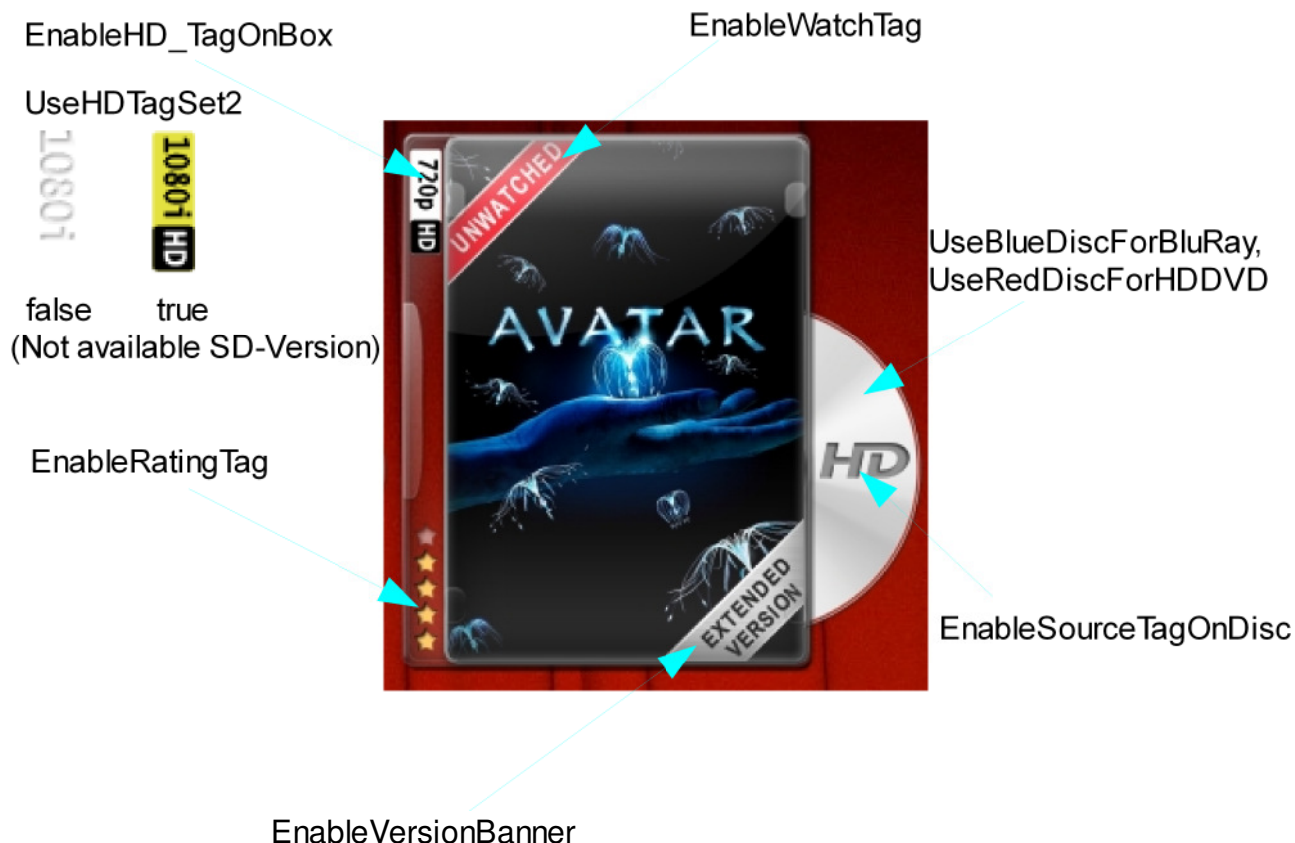

Now the setup of the skin:

Index page:

8 Covers

18 Covers

Change the following switches in section 'Index Page Options' of the 'options.xsl' file :

EnableHD_TagOnBox

UseHDTagSet2

EnableWatchTag

UseBlueDiscForBluRay,
UseRedDiscForHDDVD

false   true
(Not available SD-Version)

EnableRatingTag

EnableSourceTagOnDisc

EnableVersionBanner

For the 'Version Banner' function, the following keywords in the file name are included:

UNRATED,UNCUT,directors cut,extended cut,final cut,remastered,extended version

IMORTANT: Only the notation above is working!

Examples:

Avatar extended version.mkv

SAW UNCUT.mkv

For the 'Watched Tag' function and how it works see:

http://code.google.com/p/moviejukebox/wiki/Watched

The Set index pages have now a 'Set title' displaying in the top bar instead the letter index.

UseSetTitleInTopBarOnSetIndexPages

UseFanartForSetIndexPages

YAMJ is looking for a file with the following naming:

Set_NAME OF SET_1.fanart.jpg, example Set_Pirates of the Caribbean_1.fanart.jpg

If no one is found YAMJ download a file from the web and if that fails it uses the fanart of the first film in the SET.

For individual SET graphics use :

SET_NAME OF SET_1.jpg   → Own Poster for the Set

SET_NAME OF SET_1.fanart.jpg   → Own Fanart for the Set

Example:

SET_Pirates of the Caribbean_1.jpg   → Own Poster for the Set

SET_Pirates of the Caribbean_1.fanart.jpg → Own Fanart for the Set

Box set example:

[SET Pirates of the Caribbean] Pirates of the Caribbean At World's End.mkv

[SET Pirates of the Caribbean] Pirates of the Caribbean At World's End.jpg

[SET Pirates of the Caribbean] Pirates of the Caribbean At World's End.fanart.jpg

[SET Pirates of the Caribbean] Pirates of the Caribbean Dead Man's Chest.mkv

[SET Pirates of the Caribbean] Pirates of the Caribbean Dead Man's Chest.jpg

[SET Pirates of the Caribbean] Pirates of the Caribbean Dead Man's Chest.fanart.jpg

SET_Pirates of the Caribbean_1.jpg

SET_Pirates of the Caribbean_1.fanart.jpg

More about Box-Set see:

http://code.google.com/p/moviejukebox/wiki/BoxedSets

Remote control keys for Index Page:

8-Covers:

First row of covers (count wise left to right): 1-4
Second row of covers(count wise left to right): 5-8

18-Covers:

First row of covers (count wise left to right): 1-6
Second row of covers(count wise left to right): 7-12
Third row of covers(count wise left to right): 13-18

Letter direct selection:

09 = 111

A = 22
B = 222
C = 2222

D = 33
E = 333
F = 3333

G = 44
H = 444
I = 4444

J = 55
K = 555
L = 5555

M = 66
N = 666
O = 6666

P = 77
Q = 777
R = 7777
S = 77777

T = 88
U = 888
V = 8888

W = 99
X = 999
Y = 9999
Z = 99999

Selected letter page is highlighted in the letter index bar!

Categories direct selection:
(Use the number in front of the Letters on the remote keys)

ALL = 255 (A=2 L=5 L=5)
HD = 43 (H=4 D=3)
Fantasy = 326
Family = 3264
Action = 228
New=639
New-TV=6398
New-Movies=6396

and so on...

Colour Keys:

Red   = Direct jump to previous index page
Green   = previous genere
Yellow   = next genere
Blue   = Direct jump to next index page

Direct play of movie/playlist:

Move to a cover and press the play button. Box Set and Seasons with more than one

DVD folder 'VIDEO_TS', ISO and IMG has no effect!

Other:

Menu = Load first page of 'ALL' / Load first page of 'Extras' if in genere extras.

Home(remote) / Graphic button = Jump to selection menu like that from Kadoske in root
of HDD
                                       Box Sets: Jump to the index page where the Box set is
placed

DELETE   = Select Genere

PageUP   = Jump X pages forward
PageDOWN = Jump X pages backward
              X amount of page jumps can be set in 'options.xsl' at 'nb_of_page_jumps'

Info   = Show a Pic of the 'Index' page with the key reference

Repeat   = Jump to the NMT Menu

Down and right navigation : If you are in the second row and press the 'arrow' down again

                              -> jump to next page

Also if you select the right arrow button you can press the 'arrow'(remote) right again

 -> jump to next page

  Left navigation : If you select the left arrow button you can press the 'arrow'(remote) left again

                        -> jump to previous page

Detail Page:

Change the following switches in section 'Detail Page Options' of the 'options.xsl' file :

RunTimeInMinutes

CertificationCountry

ShowSmallPreviousNextCovers (Not available SD-Version)

MoreButtonActive

ShowPreviousCover

EnableDetailWatchTag

EnableHD_TagOnDetailBox

UseHDTagDetailSet2

false   true

EnableDetailVersionBanner

Example of selected more 'M' button:

In the moment the second page include the following Infos:
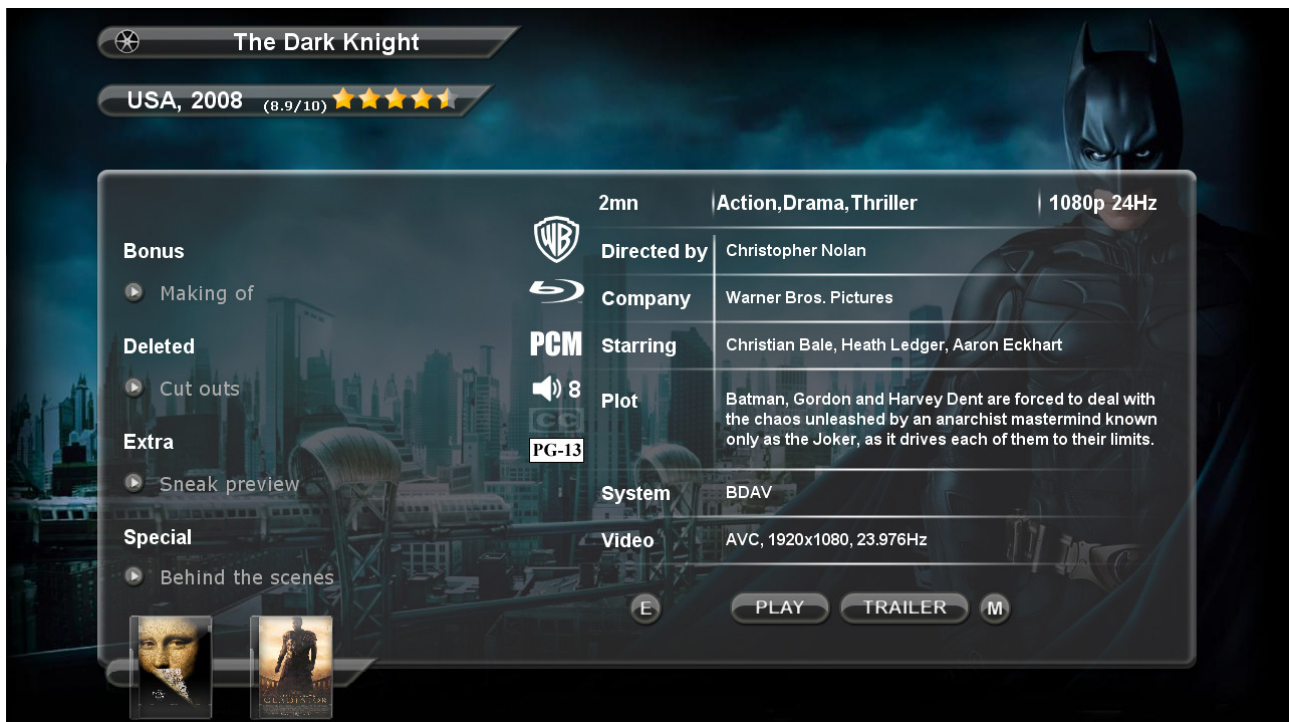

Released
Audio
Language
Subtitle Infos
File info / Folder info note: File size and date
Library / YAMJ note: Library name you give / Version and build info

If the more 'M' button is selected and you press right on the remote control then a Home button appears. This bring you directly back to the Index page (Added for E-Great users).

The extra 'E' button:

The file naming example for the extra menu contents:

The following notation keywords are required:

bonus,extra,deleted,special

File name usage example:

The Dark Knight.BLURAY.720p.m2ts
The Dark Knight[BONUS-Making of].avi
The Dark Knight[Deleted-Cut outs].avi
The Dark Knight[EXTRA-Sneak preview].avi
The Dark Knight[Special-Behind the scenes].avi
The Dark Knight[TRAILER-Test1].avi

Four different categories can be used at all.

Another example:

Only the 'Bonus' title with some entries

The Dark Knight[BONUS-Making of].avi
The Dark Knight[Bonus-Behind the scene].avi
The Dark Knight[BONUS-Cuts].avi
The Dark Knight[BONUS-Interview with].avi

ATTENTION:

The Dark Knight[BONUS-Interview with].avi
                          ^ max 30 characters for HD-Skins and 20 characters for
                            SD-Skin! More will be cut of in the menu!

The special playlist mode function:

With this mode it is possible to generate/use a playlist, but you
only see a 'Play' button on the detail page and no part index.

Use this if you want to make an intro or a pre film or something else before
the main movie. There is only a special keyword (SPLST) necessary.

Usage/Example:

UP 2009 720p[PART1] - SPLST Movie.mkv <-- Movie must be the first file due to media
infos
UP 2009 720p[PART2] - Dolby Intro.mkv
UP 2009 720p[PART3] - Pre Film.mkv
UP 2009 720p[PARTn] - xyz.mkv

The play file order is then:

UP 2009 720p[PART2] - Dolby Intro.mkv
UP 2009 720p[PART3] - Pre Film.mkv
UP 2009 720p[PARTn] - xyz.mkv
UP 2009 720p[PART1] - SPLST Movie.mkv

For a multipart movie:

UP 2009 720p[PART1] - SPLST Movie part 3.mkv <-- Movie must be the first file due to
media infos
UP 2009 720p[PART2] - Dolby Intro.mkv
UP 2009 720p[PART3] - Pre Film.mkv
UP 2009 720p[PART4] - Movie part 1.mkv
UP 2009 720p[PART5] - Movie part 2.mkv

The play file order is then:

UP 2009 720p[PART2] - Dolby Intro.mkv
UP 2009 720p[PART3] - Pre Film.mkv
UP 2009 720p[PART4] - Movie part 1.mkv
UP 2009 720p[PART5] - Movie part 2.mkv
UP 2009 720p[PART1] - SPLST Movie part 3.mkv

A complete example with all detail page features:

UP 2009 720p[PART1] - SPLST Movie.fanart.jpg
UP 2009 720p[PART1] - SPLST Movie.jpg

UP 2009 720p[PART1] - SPLST Movie.mkv
UP 2009 720p[PART2] - Pre Film.mkv

UP 2009 720p[TRAILER-up-landing_h720p].mov
UP 2009 720p[Extra-Dug's Special Mission].mkv
UP 2009 720p[Extra-Partly Cloudy].mkv

Certification setup:

In 'options.xsl' go to the following line:

 <xsl:variable name="CertificationCountry">US</xsl:variable>

Available parameters are: US,UK and GER

Set in 'moviejukebox.properties' the following values:

USA

imdb.getCertificationFromMPAA = true

imdb.preferredCountry = USA

UK

imdb.getCertificationFromMPAA = false

imdb.preferredCountry = UK

Germany

imdb.getCertificationFromMPAA = false

imdb.preferredCountry = Germany

ATTENTION!!!

For UK the TV certifications are US!

For Germany all TV certifications are maped to similar ages

Video images for seasons ON|OFF:

In 'options.xsl' go to the following line:

<xsl:variable name="VideoImagesEnable">true</xsl:variable>

set it to 'false' if you don't want video images!

Seasons,Part,Disc,CD

Now if you use a image or DVD folder and name this 'Name S02E01E02E03E04E05E06E07' you will

now get a button for each season and a video image!

'PLAY ALL' button is not available for: DVD folders (VIDEO_TS), ISO and IMG files, because makes

no sense.

Examples:

Name S02E01E02E03E04E05E06E07.ISO -> a 'Play' button

Name S02E01E02E03E04E05E06E07.ISO
Name S02E08E09E10E11E12E13E14.ISO -> a 'Dummy' button with no function!

You select the images/VIDEO_TS with the small buttons!

For all other file types a playlist is used and the 'Play All' button exist.

Remote control keys for Detail Page:

Colour Keys:

Red   = select left small box cover
Green   = jump direct to previous detail page
Yellow = jump direct to next detail page
Blue   = select right small box cover

Other:

PageUP   = jump to next detail page
PageDOWN   = jump to previous detail page

Menu   = Extra menu show/hide if Extra contents exist (Change!)

REPEAT   = Load first page of 'ALL' / Load first page of 'Extras' (NEW)

DELETE   = Hide/Show Posters and table to have look onto the fanart (NEW)

Info   = Show a Pic of the 'Detail' page with the key reference and help

Home   = Jump to the index page where the movie is placed

Direct play of movie:

Press the 'Play' button or 'Enter' if the 'Play'/'Play All' button is selected.

Episodes, Parts, Discs..:

Direct selection by pressing the number shown in the list
